

A PROSPEROUS TOWN IN CENTRAL NEVADA

Has Large Tributary Region.

Humboldt's Capital City is Progressing Steadily.

By C. D. Van Duzer.

There are a good many boom towns in Nevada and very few bum ones. There are cities like Reno and Virginia, like New Jerusalem, but for solid, substantial towns with a glow, solid growth, none can compare with Winnemucca.

Now there has been nothing in the way of a boom here this summer, yet over fifteen handsome cottages have been erected and a large addition made to the Winnemucca Hotel, while a large two-story brick store is in process of erection and among the contemplated improvements is a handsome two-story brick building to be the home of the First National Bank of Winnemucca, one of the successful institutions of the State, developed into its present sound business condition and large deposits by the ability and business energy by George S. Nixon, who is now president of the institution.

There have been no mines to boom the town, yet its center as a shipping point and its nearness to a number of valleys of importance makes it a commercial center.

Again Winnemucca is a railroad town, being centrally located between Ogden and San Francisco. When the Southern Pacific shall have expended its many millions of dollars in making the line a perfect one, with the ball and track bed, level track, easy grades and straightened curves, with finer time, Winnemucca is quite likely to become the railroad town between Sacramento and Ogden. There is at the present time a large number of the railroad boys who have made permanent homes here.

While Humboldt county is more or less a mineral county, yet there has been no startling developments lately, yet a large number of half developed districts and low grade prospects tributary to Winnemucca, which are in time destined to add much life to the town.

Denio on the northern life of the county has large gold and copper properties, but distance is a handicap to their development, being 115 miles north. Willow Creek district, 60 miles north, contains many undeveloped ore bodies, some being prospecting at the present time.

Jackson Creek is a new district sixty miles to the north-west of Winnemucca. It is coming to the front and eastern mining men are now exporting the copper prospects there.

Spring City, near Paradise Valley, a once lively mining town, is one of the finest opportunities for capital in the west. The mines closed with the slump in silver and are today the repository

of vast quantities of rich silver ore. Central district claims low grade gold, while Star Peak and Unionville, Foltz and Spring Valleys are all tributary to Winnemucca. Golconda and Sanderus are but twenty miles away. When the mining revival actually commences in Nevada, Humboldt county will be the first to catch the impulse and Winnemucca will be the natural center of a marvelous mineral country.

Winnemucca is strictly a commercial town. Farming, stock, mining and railroad interests all combining to make it the best of the smaller towns in the State.

As a residence town it has a fine water supply and the water company is soon to lay new pipes and install an electric light system.

No place in Nevada enjoys finer shade from immense trees, no soil more fertile in the line of lawns and flower gardens.

The impression the traveler receives from the dusty railroad track is quite dissipated by the cool and green vegetation of Winnemucca. Lodges, churches, a handsome high school, all add to the pleasant side of social life.

The next few years will witness a rather rapid growth in Winnemucca. A mining deal is being consummated in Kennedys which promises new life to that town, while the revival of Golconda means new life to our town, as all roads, like those of Rome, lead to Winnemucca.

At the present time there is a good deal of activity in labor circles. The Southern Pacific has a large force of men improving the track; the hay season has brought in a large number of strangers. Col. Maxson has some twenty men employed in surveying various townships near Winnemucca. The Colonel has just returned from Grapple Creek and was Nevada's only delegate to the Congress.

Col. Maxson always takes time to attend these commercial congresses and is never backward in letting the conventions know that Nevada is on the map. He sustained Nevada's part at the Omaha Exposition and has been an indefatigable worker at irrigation congresses and at the various other commercial bodies in the east. This public spirit is commendable.

Humboldt county, the third in population and business in the State, offers many inducements to capital and will in time rank well up with Washoe for the reputation of being the Empire county of Nevada.

Never Resided in this City.

Editor Journal: An article published first in the Journal, I think, stating that Mrs. Bowers lived in Reno during her prosperous days, has been going the rounds of the press.

Every old resident of Reno knows that she made her money in Virginia City and lived there until she spent the greater part of it. She then moved to San Francisco and succeeded in leaving the balance of her suddenly acquired wealth in that place.

I have lived in Reno for more than twenty-five years and the truth of my statement can be verified by any of Reno's old timers.

RESIDENT.
Reno, Nev., August 3.

BRICKLAYERS ARE PLYING THEIR TRADE

The new brick on Sierra street, being erected by Mrs. Becker, is being rapidly built. The Martin brick is nearly ready for occupancy. The brick work on the new kindergarten building is nearly finished.

In two weeks the walls of the new power house will be up. The Flanigan warehouse is assuming proportions.

SPECIAL THIS WEEK.
Alarm clocks, guaranteed for one year for 35 cents at Frank Golden's jewelry store, corner Second and Virginia streets.

VERY KINDLY COMMENDED

Press Mention the New Journal.

Nice Things Said About This Paper by Brother Pen Welders in Nevada.

The Nevada State Journal—If The News had received a copy at all, which it did not—would have appeared in a nice new dress, with all advertisements re-set and looking as dignified as though it were printed in France. The new managers are evidently making the paper pay and we wish them continued prosperity.—News.

With its issue yesterday the Reno Journal began a new volume and branched out as an up-to-date newspaper. The re-set ads show the handwriting of an artist printer and the entire appearance of the paper typographically is a marked and pleasing contrast to that of the old Journal. Under its new management the editorial and news departments also show great improvement. The new Journal is a credit to Reno, whose people will no doubt appreciate that at least they have a newspaper worthy of the name.—Silver State.

The Reno Journal came out in a new form yesterday which greatly improves the appearance of the paper. Under the new management the Journal is rapidly improving.—Carson Appeal.

The Reno Journal appeared in a new make-up yesterday and looks O. K.—Enterprise.

The Reno Journal comes out in a new make-up. Under the present management the Journal is strictly up-to-date.—Elko Independent.

A striking change is to be noted in the make-up of the Reno Journal which is now one of the neatest and most progressive interior newspapers on the coast.—Report.

Reno Journal came out Thursday with an entire new make-up. It is a great improvement and shows what brains and push can accomplish. The Journal is now unquestionably the best daily in the State.—Wells Herald.

SOME NEW PATRONS

Recent Accessions to the Journal's Advertisers.

Several new advertisers are buying space in the Journal every day. Not an issue of this paper is published without containing from two to five new advertisements. The superior circulation and news service of the Journal is making its space valuable to business men.

The Palace Hotel makes an announcement elsewhere in this paper. This prominent and popular hotel is headquarters for stock and mining men as well as commercial travelers. It is centrally located and is run in first-class style.

M. Simas and Charles Hamp have formed a partnership known as Hamp & Simas. They will engage in the plumbing business. Their shop will be located in the Masonic building. Both are expert workmen. Note their ad in another column.

COLLISION BETWEEN BICYCLE AND BUGGY

Rapid, careless driving was responsible for another accident last evening. About 8 o'clock a collision took place at the corner of Virginia and Second streets. George Grant and Archie McCabe were driving up Virginia street and Miss Lillian Marette turned out of Second. Her wheel collided with the buggy and she was violently thrown to the ground.

The young lady was carried into Cann's drug store where restoratives were applied. Her injuries are painful, but not serious.

Frank Collecting Dough.
Frank Golden got back from Tonopah yesterday. He is taking his money out of his leased claim. A good sized streak in his ledge is running \$1100 a ton. He says that all the leasers are doing well and some are getting rich.

PRIDE RUINS MANY EYES.
Why do so many complain of their eyes, simply because they need glasses. In many cases pride keeps one from wearing them. Let pride go and save your eyes by going to Golden's jewelry store where you will find the only grade eye glasses in the State.

Will the Central Nevada kindly credit articles reprinted from this paper?

THE ROBBER WAS SOON CAPTURED

Yesterday a robbery was committed at Loughton's Springs. A gang of section men left their belongings on a handcar and when they returned found a suit of clothes and a number of other articles missing.

The officers in Reno were notified and last evening Constable Brundage arrested a man wearing the stolen clothing and having the other plunder in his possession.

OF INTEREST TO EVERY ONE

Watches of all descriptions repaired by one of the best watchmakers on the coast. All work guaranteed and prices reasonable. When your watch needs repairing go to Golden's jewelry store.

Another gold mine reported from Wedekind City. J. F. Branley began sinking a prospect hole a short distance back of the new saloon on the Gulling ranch.

At a depth of four feet he encountered decomposed quartz which is said to be liberally sprinkled with free gold. Assayer Libby saw specimens that contained nuggets weighing from 50 cents to \$2 apiece.

Unless the whole proposition was given and artistically salted, in order to have a jolly on the other prospectors, Mr. Branley has congratulations coming.

John Wedekind, who has studied the formation there more exhaustively than any one else in the district, says that there is no reason why the resource of the gold in the district is not in a quartz ledge.

At all events a little depth will tell the whole story.

Quite a number of men are at work in the new camp seven miles southeast of Reno. There is considerable shipping ore in the dumps and the extent of the ore bodies is being traced. Judge Wren pronounces the formation almost exactly identical to that in the Reno Star. The values are not so high, but depth may tell a different story.

One shipment are being steadily made from Wedekind City. Only the very rich sulphides are being sent out. The constant sorting to which the ore is subjected is evidence that Mr. Sparks is figuring on a smelter. His dumps contain a great quantity of ore running from \$50 down.

The double compartment shaft at Steamboat is being steadily sunk. The formation is still wash gravel but indications are that solid formation will soon be reached. Considerable hot water is being encountered, but the new pump is handling it with ease.

Work is progressing steadily on the mines at Dogskin. Another well is being sunk. The properties there will probably ship considerable ore before the end of summer. Last season shipments were made by R. Nash & Co. and by the Emeralds Company.

The Nevada Exploration & Development Company's town on Peavine is being extensively developed by the new company, which recently bonded the claims. There is some talk of a smelter being erected there.

DOINGS OF SOCIETY IN THE PAST WEEK

LAST week was a dull one in society. Everybody, figuratively speaking, is at the seaside or in the mountains. Those who remain are not in the mood for entertaining, and will not be until the sultry season passes.

Miss Echo Mapes gave a farewell party Thursday evening. She leaves this morning for San Francisco, where she will resume her studies. There were thirty young people present and a merry evening was passed. Dancing, cards and games were provided for those who desired such recreation. The other guests spent the evening in conversation and music. Refreshments were served. The young hostess was wished godspeed on her journey.

Last night the grizzled veterans of the Grand Army of the Republic were given a surprise party in Investment Hall after the business of their regular meeting was concluded. The hostesses were the ladies of the Women's Relief Corps. A liberal portion of the delicacies that graced the board found their way to the Journal office conveyed by a committee of three ladies. The typos return their fervent thanks.

A party was given last night by the Sierra Social Club at its hall near Huffaker. A number of Renosites were present and the whole countryside attended. This club is the center of the social life on the Truckee meadows. Since it was organized, less than a year

ago, it has given a number of parties, all of which were very pleasant events. During the winter season they will be given at least once every two weeks.

There was a sound of revelry at the Arcade last night. The Reno Wheelmen were hosts at a sumptuous banquet tendered to the champion relay team. In addition to the ten riders, the racing board and club officers were present. When the cloth was removed toasts were responded to and the long deferred self congratulation over winning the last two championship races was indulged in.

A pleasant midsummer social was given Thursday evening in the gymnasium. It was tendered by the University people who are remaining in town during the vacation season. Only about thirty couples were present, but the evening was even more enjoyable than if there had been a crush. The floor was in perfect condition, and the music was of the best.

Wednesday evening the Ladies of the Macabees were tendered a fete champetre on the broad lawns at the Davenport home on Sierra street. There were about 150 guests. The grounds were tastefully decorated. They were illuminated by Japanese lanterns. Ice cream and cake was served to the guests.

Next month the Nevada Club will resume its regular Friday evening socials.

Relay Today in Carson.

All preparations for the great relay race today at Carson between married and single men have been completed and when the hour of two o'clock is announced the start will be made. E. E. Roberts riding the first relay for the married men and Charley Brubaker, the first for the single fellows, says the News.

There is a pleasant rivalry all around and some great fun may be anticipated. The single men figure out that they have about three minutes the best of the race in time, but the married men assure them that if they get in at all they will be fortunate.

Of course the married ladies will applaud the single men and equally of course the single ladies will shout for the married men. The riders will have the entire considerable editorial comment on the part of the spectators, but they have had considerable practice in this since the race was first announced.

ARE YOU GOING TO CLAIRVILLE?

Are you going to Clairville this morning? There is still time to get your ticket. Only one dollar for the round trip. The day promises to be bright and fair. The train will stop at Grizzly Creek to permit fishermen to try their luck. About five hours will be spent in the forests of Plumas. The Nevada-California-Oregon road will put on a comfortable train and will provide accommodations for all who wish to go. This may be the last excursion of the season at this low rate. Don't miss this opportunity.

Episode of a Quiet Day.

Rain Visits the Valley.

In the Justice Court.
